

LOOK GREAT
FEEL GREAT

 COLWAY
INTERNATIONAL

From deep ocean waters, we discovered a rich source of strong collagen that is identical to the protein structures of the human body, making it equally capable of replenishing them.

For over a dozen years now we have been acquiring biologically active collagen from fish, and our fascination with this discovery feeds our passion for creating effective skincare!

Native Collagen is our flagship product, and is the inspiration behind many of our other skincare and dietary supplements – it is at the heart of all of our products.

Colway International branded products are created based on Polish achievements in biotechnology and cosmetology, which makes us a Polish ambassador on every continent.

Every day, our skin is exposed to harmful sunlight and stress, which results in accelerated aging.

The advanced, innovative formulas of our cosmetics work effectively on all of the skin's layers. They stimulate renewal and protect against the damaging effects of free radicals.

Colway products are based on rich compositions of active ingredients that provide unique daily care.

Thanks to them, your skin will remain healthy, youthful and beautiful.

And beauty also means health. For proper functioning, human body cells need about 60 nutrients per day in appropriate proportions, nearly 40 of which the body is unable to produce by itself. Even with a balanced diet, the impoverishment of produced food makes it difficult to obtain these nutrients. As a result, supplementation has become an obligation, not a choice. This is why we are heavily invested in creating our unique supplements.

Try Colway International's Idea of Youth and Health for Yourself!

*Our products are created with passion.
The quality and high concentrations
of active ingredients in all our compositions
guarantee their effectiveness.*

– Colway International Team

A close-up, high-resolution photograph of a woman's face, focusing on her eye and the skin around it. Her hand is gently touching her cheek near the eye. The lighting is soft and natural, highlighting the texture of her skin and the detail of her eye. The overall tone is warm and intimate.

NATIVE COLLAGEN

by Colway International

Native Collagen belongs to a new-generation product family and is one of the greatest recent skin care sensations.

NATIVE COLLAGEN

Did you know that...

96%

of surveyed users confirmed that Native Collagen firms their skin

Native Collagens belong to a new-generation product family and is one of the greatest recent skin care sensations.

Collagen is isolated from fish skin, at the stage of its molecular development, and its natural peptides freely penetrate the epidermal barrier.

- Feeling of skincare (100%)
- Skin regeneration effect (92%)
- Improved skin elasticity effect (96%)
- Skin smoothing effect (96%)*

What is collagen?

Collagen, the 'youth protein', represents over 30% of human protein and as much as up to 70% of skin proteins. Together with elastin, they create the elastic mesh in the dermis, which provides it with elasticity and firmness, binds water, lipophilic substances and defines the condition of the skin's connective tissue.

Yet collagen production is disturbed after **the age of 25**, when the inevitable progression of collagen's disappearance begins. **Irreversibly. At the age of 40, it accelerates** and collagen loss reaches about 1% per year.

How does it work?

- Gradually and non-invasively supplements the skin with proteins
- Increases synthesis of collagen and skin builders
- Provides a lifting effect

Smoothes and regenerates, reduces wrinkles, improves tightness and elasticity.

* Study conducted on 25 people for a period of 4 weeks

NATIVE COLLAGEN

Native Collagen PURE

This is the power of pure collagen, hypoallergenic and free of parabens, fragrances and artificial colours. The product has very strong regenerative properties and effectively delays the wrinkle formation process. Recommended for the face, neck and décolleté. It is also perfect for all-over body care, especially for burns, cuts and abrasions. Because of its natural composition, Native Collagen PURE is a universal product for the whole family.

Skin firming effect (96%)

Improved skin elasticity effect (96%)

Overall improvement of the skin's appearance (96%)*

Native Collagen GOLD

Native Collagen GOLD is enriched with nano gold and nano colloidal silver, azelaic acid, chitosan and retinol. Designed for people with problematic, hypersensitive skin that is prone to inflammation, and for care in acne treatment.

*Can **Native Collagen Gold** be used by young people? Collagen protein has a **repairing effect** on young complexions. It has strong regenerative properties and slows down collagen degradation processes in young skin.*

Key ingredients:

Nano colloidal gold (Axonnite) – improves elasticity and firmness. Regenerates, captures UV, lightens and stimulates repair processes.

Nano colloidal silver (Axonnite) – a natural antibacterial agent. Helps fight hard-to-heal wounds and acne.

Azelaic acid – used in acne skin care. Shows an antibacterial and anti-inflammatory effect.

Lactoferrin – a bioactive protein with anti-inflammatory, antibacterial and anti-acne effects.

Chitosan – a 'dressing' for red, irritated and dry skin.

Retinol – stimulates hyaluronic acid production, lightens and improves blood circulation in the skin, and regulates the secretion of sebum.

Native Collagen DNA

Native Collagen DNA is Native Collagen Pure enriched with active substances that support and activate the natural processes of forming connective tissue. It intensively stimulates cells to encourage their proper functioning. DNA repair and its protection is the most important part of maintaining young, healthy skin.

Key ingredients:

DNA + RNA nucleic acids – strong antioxidants that activate replication of the skin structure, as well as activate and oxygenate skin cells.

Kinetin – stimulates DNA repair processes, protects against UV rays and free radicals, and reduces hyperpigmentation.

SOD (superoxide dismutase) – an elite cosmetic component and one of the strongest naturally-occurring antioxidants.

GHK-Cu Copper Peptide – stimulates the functioning of stem cells, increases collagen production, improves elasticity and evens skin tone. Supports wrinkle reduction and increases skin density.

Extract from rose placenta – one of the most active factors regenerating tired, aging skin, has a moisturizing and anti-inflammatory effect.

SAFE & SAVE

by Colway International

SAFE & SAVE

Safe & Save are safe formulas of cosmetics in which confirmed action of collagen is supported by specially selected, natural ingredients that have beneficial influence on your skin. They have friendly prices so that you can use of them every day

Who is it for?

These delicate compositions are a response to the needs of the whole family – yours and your loved ones.

What does it do?

- Thanks to the fish collagen presence as one of the components, it regenerates tissues
- Safe hygiene from head to toe
- Effective and healthy care every day

The extraordinary power of Native Collagen in cosmetics for daily care and hygiene, in economical packaging with a Colway International quality guarantee.

Key ingredients:

Collagen – strongly regenerates, is a natural source of peptides that penetrate the epidermis and stimulate fibroblasts for increased activity.

Red algae *Corrallina Officinalis* Extract – contains minerals absorbed from sea water, including an extremely high amount of natural calcium, it strengthens the walls of the blood vessels of the gums and increase their resistance to external factors.

Axonite Nanosilver – has antibacterial, anti-inflammatory and soothing effects. It is a natural preservative.

Aloe extract – has a softening, regenerating, antibacterial and antifungal action. Supports wound healing and treatment of inflammation.

Irises' isoflavones – prevent epidermal atrophy by inhibiting inflammatory processes and stimulating cellular renewal, maintaining fibroblast activity, improving skin firmness and elasticity.

Collagen toothpaste

A complex of active ingredients cleaning teeth with a delicate mint flavor. Enriched with marine collagen having a strong regenerating effect on the gums. It does not contain fluorine.

100 ml

Deo roll-on

A natural deodorant that provides comfort every day.

50 ml

Collagen intimate cleansing care

The formula is based on mild cleansing substances what ensures a long-lasting feeling of cleanliness and freshness.

Does not contain soap. It cares for the proper level of hydration and pH of the intimate surroundings.

150 ml

CLEANSING

by Colway International

CLEANSING

Appropriate cleansing ensures the effectiveness of other cosmetics, helping your face look fresh, radiant and healthy.

Who is it for?

For every skin type, including sensitive skin.

What does it do?

- Removes make-up and other impurities that have accumulated on the skin
- Moisturises
- Refreshes

Clean skin, evenly balanced, that is ready for the application of skincare products has better absorption of active ingredients.

Key ingredients:

Sea Moist Complex® – a macroalgae and seawater complex that provides intensive moisturisation, and regulates hydration and skin homeostasis.

Keratoline™ – a protease enzyme-based exfoliant obtained by fermentation. Removes dead skin cells, creating skin softness, radiance and an even skin tone.

Xylitol and Lactitol – pre- and pro-biotics that regenerate and maintain the balance of the skin's ecosystem.

Glycerine – coats the skin and binds water. Necessary to maintain proper hydration of the skin.

Micellar cleansing water

Quickly and effectively removes make-up using micelles.

200 ml

Gentle face cleanser

Cleanses the skin without affecting its natural protective layer. No parabens, dyes or SLS soaps.

150 ml

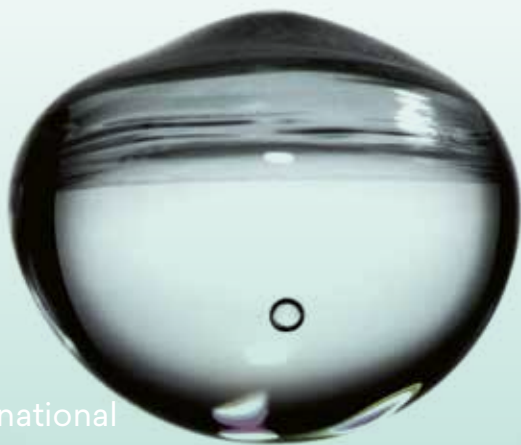

Enzymatic face exfoliator

Cleanses, restores softness and evens skin tone.

100 ml

HYDRO

by Colway International

Regular hydration is one of the conditions for keeping the whole body in perfect condition and delaying the aging process.

HYDRO

Who is it for?

All skin types (dry, oily, combination) requiring intensive moisturizing.

What does it do?

- Deeply moisturizes
- Protects the skin from external irritation
- Slows the aging process of the skin
- Skincare designed for the special requirements of sensitive and vascular skin

**Moisturizes, enhances
and soothes skin.**

Increases resistance to external factors.

Key ingredients:

Sea algae – provide substances needed to restore water balance and create a protective film on the skin.

Hyaluronic acid – moisturizes and helps to fill wrinkles. Smoothes, firms and improves skin elasticity.

Xylitol and Lactitol – pre- and pro-biotics that regenerate and maintain the balance of the skin's ecosystem.

TEGO® Smooth Complex – helps moisturize the skin, makes it smooth and protects it from external irritations.

Collagen – a natural source of peptides that freely penetrate the epidermis and stimulate fibroblasts to increased activity.

Intensive face moisturiser

Light cream for optimal skin hydration throughout the day. Provides comfort and hydration and soothes irritations.

50 ml

Ultra moisture night cream

Supports natural, night-time skin regeneration mechanisms with unique regenerating and moisturizing substances.

50 ml

Hand cream

Exceptional care cream with collagen and hyaluronic acid. Protects the skin from the adverse effects of external factors, is quickly absorbed and leaves skin nourished for a long time.

100 ml

Deeply hydrating body balm

Product for active, fast and effective care of the whole body, moisturizes the most demanding and prone to drying parts of the skin.

200 ml

Collagen lip care

Rich serum that guarantees comprehensive care for dry lips throughout the year. Provides deep regeneration and lasting moisturisation for lips.

3 pcs.

NATURAL

by Colway International

Care products composed
of priceless natural wealth.

NATURAL

Who is it for?

Effective skin care for all skin types, designed to strengthen, renew and protect the skin from the effect of harmful external factors.

What does it do?

- Protects the skin from free radicals, which contribute to its premature aging
- Activates skin repair processes
- Restores skin firmness and elasticity
- Relieves inflammations

Excellent antioxidant protection.
Protects the skin against aging processes.
Smooths, nourishes
and moisturises skin.

Key ingredients:

Guggulu resin fluid – regenerates cells and prevents wrinkles. Has anti-inflammatory, rejuvenating and energizing effects.

Chia seed Fluid – contains high levels of alpha-Linolenic acid, which contributes to maintaining moisture in the skin.

Chinese tea extract – thanks to its polyphenol content, it exhibits strong anti-oxidant, regenerating, anti-wrinkle effects.

Andean wild rose extract – contains vitamins A and C, strengthens capillaries and has an anti-inflammatory effect.

Macadamia nut oil – strongly firms and softens the skin, stimulates skin microcirculation, moisturizes and nourishes.

AntiAge capsules

Ortho-molecular Therapy.
Essential care with organic
oils of the highest
microbiological purity.
Has an antioxidant
and anti-aging effect.
Rejuvenating night
treatment for face, neck
and décolleté.

14 pcs.

Face cream

Exceptional protection
and antioxidant care
for Her and Him,
provides silky soft
and moisturized skin.
50 ml

The background of the entire page is a close-up photograph of a large, vibrant green leaf, likely a lotus leaf, covered in numerous clear water droplets. The leaf's veins are clearly visible, creating a complex, organic pattern. Two small, dark brown glass dropper bottles with white caps are positioned vertically in the center of the frame. The top bottle is slightly higher than the bottom one. Both bottles have light green labels with the word 'Natural' in a bold, sans-serif font. The bottom bottle's label also includes the words 'antioxidants' and 'hair care serum' in smaller text. The overall aesthetic is clean, natural, and fresh.

Face and body serum
ANTIOXIDANTS

Composed of eight natural antioxidants to restore the skin's firmness and elasticity. Nourishes and restores its radiant appearance.

15 ml

Hair serum
ANTIOXIDANTS

Light formula based on natural oils that cares for the health of your hair and scalp.

30 ml

ANTIAGING

AntiAging Therapy
by Colway International

Exclusive care dedicated
to demanding, mature skin.

ANTIAGE

Who is it for?

Mature skin requiring firming, moisturizing and strong regeneration.

What does it do?

- Inhibits the skin's aging process
- Restores skin firmness and rejuvenates
- Supports cell renewal processes
- Contains rich compositions with high concentrations of active ingredients

*Rejuvenates, smoothes, and leaves skin looking **visibly younger** with a more radiant complexion.*

Key ingredients:

SOD (superoxide dismutase) – an elite cosmetic component and one of the strongest naturally-occurring antioxidants.

Tyrosin β 4 – has the unique ability in its active form to stimulate supra-cell division.

Colostrum – the 'master of regeneration', affects synthesis of collagen, has a regenerating and repairing effect on the epidermis.

Citrus aurantium stem cells – responsible for the division and maintenance of normal skin by natural regeneration of the epidermis.

Fibroblasts growth factor, FGF-1 – induces biosynthesis of collagen, elastin and laminin proteins, as well as hyaluronic acid.

Actigym™ – it shapes and tones by reducing the size of the abdomen and thighs, and tightening saggy skin.

Novapur™ Zi Cao OS – its soothing and anti-inflammatory effects on the skin, and its support of microcirculation and removal of toxins from the body.

ANTIAGE

BEFORE

AFTER

Express lift
mask
50 ml

*Hydrolifting injection for the skin rejuvenating
it in the blink of an eye.
**Lifting without beautician's,
without plastic surgery.***

Who is it for?

- mature skin, prone to wrinkles and laxity,
- tired skin, in need for regeneration, hydration and lifting.

What does it do?

- lifting just after 30 minutes,
- radiant, soft and smooth skin,
- long-lasting hydration,
- improvement in skin density and elasticity,
- smoothed and reduced wrinkles,
- improved skin tone and lifted face oval.

Body sculpting and firming serum

A complex of substances promoting firm and elastic skin for the whole body.
200 ml

Eye contour collagen elixir

Intensive skin care that firms, moisturizes and smoothes the contours of the eyes. Contains Fibroblasts growth factor FGF-1.
15 ml

Intensive hydro-lifting eye serum

Special care! Improves the condition of the skin around the eyes, making the entire face look younger. Lifting and tightening of the skin.
15 ml

Rejuvenating face cream

Exclusive, concentrated treatment that slows down the skin's aging process. Visibly rejuvenates the skin.
50 ml

D N A

Why is my skin aging? Why are my wrinkles becoming visible?

Lack of sleep, an improper diet, air pollution and stress – these dangers affect us every day, causing worsening of our bodily condition and overall quality of life. And as a result, our skin ages faster.

Skin degeneration has two main causes: improper moisturisation and care from the outside, resulting in skin cell depletion. This causes, for example, micro-cracks on the lipid layer of the skin and increased effect of free oxygen radicals that cause damage to cells, as well as to our DNA and RNA.

We know what the skin requires, which is why we've created a line of cosmetics that strengthens and activates the natural processes of cell formation, stimulating them to action and division.

The DNA line features **highly-concentrated cosmetic formulas** that have a unique effect not only on the skin's surface, but also at the cellular and intercellular levels. Products in the DNA line are based on innovative scientific achievements, the proven biological effect of active collagen and active ingredients sourced from around the world. This guarantees its **efficiency and rejuvenating effect compared to the usual aesthetic treatments.**

D N A

by Colway International

D N A

Repair and protection of your DNA is the most important part of having healthy, youthful skin, so we've created highly-concentrated formulas that work at the cellular and intercellular levels.

Who is it for?

Skin aged **30+** that requires anti-aging protection.

What does it do?

- Perfectly moisturizes and protects the skin from the damaging effects of free radicals
- Slows the appearance of aging symptoms
- Improves blood circulation and oxygenates the skin
- Increases synthesis of collagen and skin builders
- Prompts cells to regenerate

Efficiency and rejuvenating effects comparable to aesthetic medicine treatments.

Key ingredients:

The DNA line consists of visibly rejuvenating cosmetics formulated from the latest technology to provide a 4-level anti-ageing effect, based on 20 active ingredients:

1.

Antioxidation

SOD Superoxide Dismutase • Dragon's Blood • Coenzyme Q10
• Lycopene • Cranberry Seed Oil • Vitamin C • Vitamin E

2.

Regeneration and renewal

DNA and RNA Nucleic Acids • Kinetin • GHK-Cu Copper Peptide
• Extract from rose placenta • Mexican Sprout • Argan Oil • Avocado Oil
• Jojoba Oil

3.

Moisturisation

Hyaluronic Acid • Allantoin • Silk • Zemea®

4.

Creation of new collagen

Biologically active native collagen

Native Collagen DNA

A combination of nature and the latest biochemical engineering. Contains active substances that support and activate the skin's natural cellular regeneration process.

50 ml

Intensive anti-wrinkle concentrate

Active substances with strong anti-aging and anti-wrinkle effects.

7 ampoules

Luxury DNA Day Care

A light cream that flatters your skin with its unique composition, providing four-level anti-age care.

50 ml

Luxury DNA Night Care

A rich night cream that envelops mature skin and strengthens the natural processes of cell renewal.

50 ml

FORCE

by Colway International

FORCE

Refreshing body shower gel

With collagen as one of the components having a light and fresh fragrance, for men that have an active lifestyle, needing vitality and energy.
200 ml

Ultra facial cream for men

Multifunctional cream that nourishes the skin of the face and beard. The unique combination of indigenous African oils is the basis for the optimal ratio of Omega 3 fatty acids contained therein (omega 3, 6, 9).
50 ml

Who is it for?

Men's skin.

What does it do?

- Restores skin moisturisation
- Improves skin elasticity and density
- Stimulates skin cells to rebuilding and auto-regeneration

Key ingredients:

Unique composition of omega-3,6,9 fatty acids, EFAs – these are essential precursors of cell membranes, to which we've added marula, perilla and argan tree oils for their antioxidant, regenerating and moisturizing properties.

Citrus Aurantium stem cells – responsible for division and maintenance of normal skin through natural regeneration of the epidermis. The stem cells limit the negative effects of free radicals and DNA damage.

Ferulic acid – a powerful antioxidant that works synergistically with other antioxidants, e.g. vitamin E and vitamin C, stabilising them. This results in enhanced effectiveness and endurance. Also as anti-wrinkle properties.

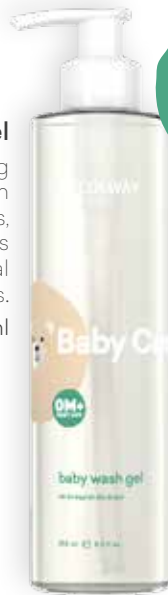

BABY CARE

A close-up photograph of a baby with blue eyes and an open mouth, being held and kissed on the cheek by a woman. The baby is wearing a white t-shirt. The woman's face is partially visible on the left side of the frame, with her lips pressed against the baby's cheek. The background is a soft, out-of-focus skin tone.

by Colway International

Baby wash gel

Ultra-gentle cleansing of the skin without parabens, SLS soaps and artificial colourants.
250 ml

OM+
BABY SAFE

Gentle, effective care and hygiene for baby's skin.

Who is it for?

Sensitive skin, the skin of small children from the first day of a baby's life.

What does it do?

- Strengthens the skin's protective barrier
- Moisturizes, soothes and nourishes delicate baby skin
- Friendly to baby skin, including infants and newborns

*Clean, healthy skin,
protects against external factors.*

Key ingredients:

Simulskin – a special ingredient that acts as a biomimetic 'second' skin, mimicking the composition of the epidermis.

Xylitol and Lactitol – pre- and pro-biotics that regenerate and maintain the balance of the skin's ecosystem.

Phytovie™ Defense – a natural component derived from the Chinese Tung tree and rapeseed oil from GMO-free cultivations. Great for moisturizing the skin.

SUPPLEMENTS

by Colway International

We make sure that all our supplements are composed of natural ingredients. They are distinguished by the quality of their select substrates, as well as the extraction technology we employ.

Xshot!

Energy from nature!

provides you with extra energy, thanks to 16 specially selected substances
| removes feelings of tiredness and fatigue

Always
choose Xshot
for an extra shot
of energy.

Xshot contains a combination of **vitamins, minerals and plant extracts** specially selected to **combat tiredness and fatigue**, as well as to **support normal energy metabolism (vitamin B₁₂)**. Composed of 16 ingredients supporting the body's own natural energy production mechanism, **Xshot** will help you feel more **empowered** by giving up high-sugar energy drinks – such drinks dramatically raise and then quickly lower your blood glucose levels, increasing your energy deficit.

Who is Xshot for?

- Anyone who needs a burst of energy,
- Anyone with an active lifestyle, practising sports and controlling their weight,
- Regular gym members – as an alternative to synthetic glucose shots,
- Frequent travellers on business trips by car, or anyone spending long hours behind the wheel,
- Anyone working or studying for long hours – when an extra dose of energy and concentration is required.

collup

Skin / hair / nails / young body.

supporting the production of systemic collagen | reducing inflammation
| fight with free radicals

A comprehensive
supplement
– keep your youth
for longer.

The main component of the collup is **lyophilized fish collagen** (60 mg per capsule) – which is the best source of building materials for our collagen. It contains signal peptides, molecules that inform cells about the production of more collagen.

Collup contains **vitamin C** and the substance that allows it to be repeatedly reproduced al-phaliponic acid, silicon and vitamins A and E, and therefore a set necessary for the effective production of collagen.

The composition also includes **flavonoids**: lycopene, anthocyanins or oligomeric procyanidins (OPC) and flavonoids from wild rose (accompanying vitamin C). We have added minerals: **zinc** and **selenium**, which enable the action of antioxidant systems in cells. Together with flavonoids, they reduce inflammation and allow cells to work in better conditions. By adjusting the mitochondria, they provide more energy with fewer free radicals.

collup

Skin / hair / nails / young body.

supporting the production of systemic collagen | reducing inflammation
| fight with free radicals

collup
collagen supplement

Nettle extract strengthens hair and nails.

Lycopene acts as an antioxidant, it improves the condition of hair follicles, increasing the production of keratin, which is the building block of hair.

In collup we have a range of **vitamins B**, essential for the development of hair follicles and hair growth, but also improving the metabolism of the whole body and the functioning of the nervous system.

All ingredients support the main roles of collup – improving collagen production, reducing inflammation and fighting free radicals. The visible effect is the improvement of the health and appearance of the skin, hair and nails, as well as the general rejuvenation of the body and mind.

*Did you know that to function properly,
the body's cellular system needs about
60 nutrients per day, all in the right proportions?*

*Nearly 40 of these can't be produced by themselves,
and even with a balanced diet the impoverishment of modern,
produced food makes it difficult to obtain these nutrients.*

vitamin C-olway with collagen

The most vital of life's vitamins.

for everyone | immunity | the basis of health

Contains pure collagen in a biologically active form, as well as wild rose plant extract.

Vitamin C is **the most important of all the vitamins** in our food, because of its role in the **formation of bio-collagen** – the protein of youth and the main component of our connective tissue. Vitamin C effects the proper functioning of the capillaries, skin, gums and teeth as well as bones and cartilage. It particularly effects the **proper functioning of the immune system** and is responsible for the **proper functioning of the nervous system and psychological functions**. Vitamin C also **protects** the cells from **oxidative stress**, reduces the feeling of tiredness and fatigue.

There are more than **130 organic compounds in extract of wild rose plant**. Their vitamin C content is 10 times higher than in, for example, blackcurrant, and 100 times higher than in apples. The *Rosa canina* variety used in vitamin C-olway was selected for its growth in Poland, and because it proved to have the highest, most perfectly bioavailable content of vitamin C.

Humans are one of the few mammals on the planet whose organism does not produce its own vitamin C. Natural vitamin C, in combination with the synthesized kind, is better absorbed by the human body and is 3 to 5 times more active. It is better absorbed from the gastrointestinal tract, more effective in action, and works faster and for longer in the necessary concentration in the body.

magnesium complex

Magnesium is crucial in every tissue of our body and is known as the 'element of life'.

proper functioning of body cells | life-energy processes | normal brain, heart, and nervous system operation

Composition of three forms of highly absorbable magnesium.

Magnesium complex is a **composition of three highly absorbable forms of magnesium** – magnesium lactate, magnesium citrate and magnesium diglycinate. It is enriched with **vitamin B6**, which facilitates Mg absorption, its cellular transport and maintenance of its intracellular storage. Intense lifestyles, physical effort, irregular sleep, stress, alcohol and drinking large amounts of coffee all increase the need for magnesium. Magnesium complex supplements the daily diet with magnesium, which is one of the most important **micronutrients and crucial to staying in good health**. Magnesium is an **activator** of over **300 enzymes** that are involved in, amongst many other things; the metabolism of carbohydrates and fats; protection of the heart muscle against ischaemia and hypoxia; prevention of heart rhythm disorders; regulation of blood pressure; reduction of blood cholesterol; prevention of atherosclerosis, and stabilisation of the nervous system. This results in a sedative effect and the **increased productivity of our brain**. Magnesium is also essential in bone mineralization and development.

collaceina

The essence of life, straight from nature!

immune system | protection against infections | strong, healthy body

A dietary supplement with a comprehensive effect on the immune system. The best guardian of our body's immune protection.

Collaceina is a unique and effective food supplement that has a **comprehensive effect on the immune system**. It includes two kinds of capsules. The first contains nature-derived substances with high immunising properties, such as **lactoferrin, lysozyme and colostrum**.

The second consists of **nine selected strains of live bacteria**, whose task is to maintain the **balance of bacterial microflora** in our digestive tract, and the prebiotic food for these bacteria – **fructooligosaccharides**

colamiD

A natural amino-mineral-vitamin complex.

bone-cartilage system | supplies amino acids and minerals
| strong and healthy movement apparatus

Rich in micro- and macro elements, amino acids and vitamins, an extraordinary dietary supplement reinforcing the skeletal system. Prevention of osteoporosis.

ColamiD is a natural amino-mineral-vitamin complex. It provides the system with highly **bioavailable minerals, macro and micronutrients**, including **calcium and phosphorus**.

The supplement base is a **powdered fish complex** with a full amino acid profile. The raw material is obtained from wild cod fish inhabiting the waters of the Atlantic Ocean, free of GMOs with the highest microbiological purity. Fish meat contains a set of amino acids necessary for building our proteins, and in perfect proportions. Amino acids are the basic components of proteins. Proteins are the most important nutrients for maintaining life. They are part of all tissues of the human body and many biologically active compounds, such as enzymes and hormones. The demand for amino acids increases as a result of illnesses, long-term stress, during the rapid growth of the young body, in overloaded states (training, active tourism, hard work) or during breastfeeding. The **vitamin D** contained in colamiD decides about a huge number of processes occurring in the human body, affects, among others the work of the skeletal, muscular, nervous and immune system. The addition of **vitamin K** contributes to the effective absorption of calcium and proper blood coagulation.

omega complex

Dietary supplement with superoxide dismutase and chlorophyllin.

circulatory system | provides antioxidants and unsaturated fatty acids | healthy heart, slim young body

Composition of the highest quality bioavailable oils 3-6-9 SOD, enriched with Omega.

Omega complex is a unique food supplement. It contains high-quality cold-water fish oil, **rich in omega-3 fatty acids**, and also high-quality oil from sea algae. The omega acids in this are equivalent to fish oils, and also include **DHA (docosahexaenoic acid)**. We obtained the ideal EFA Omega 3-6-9 ratio, based on current knowledge of its use with other oil-based plants. To this we added a kind of linseed oil created in Poland, which has the world's highest thermal-time stability of Omega acids. As such, we're confident that consumers are receiving complete sets of easily bioavailable, unsaturated fatty acids of high quality, taken exclusively from nature.

Omega complex is a **revolutionary, innovative formula**, in which – for the first time in a dietary supplement – **superoxide dismutase (SOD)** with **strong antioxidant action** has been used for the protection of active substances (EFT)!

slimCol

Supports weight loss.

dimagrimento | riduzione del peso e dell'appetito | salute e corpo snello

Contains substances of pure plant origin. A healthy way of losing weight.

SlimCol is a dietary supplement that contains a combination of **plant extracts**, selected to support the body **during the weight loss process**.

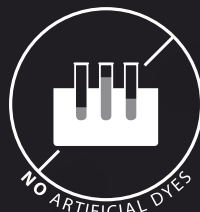

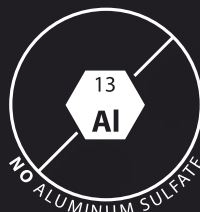

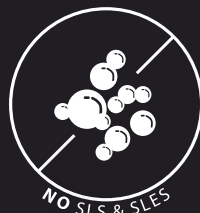

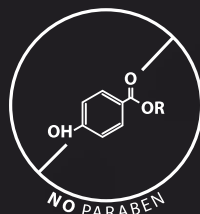

The natural substances are **rejuvenating**, and **support the metabolism of fats and sugars**, as well as contributing to normalization of body weight.

The composition also contains capsaicin, which stimulates carbohydrate oxidation and helps maintain normal body weight after weight loss. **Capsaicin** is an antioxidant, therefore it also protects the body against free radicals. And the artichoke in slimCol supports weight loss and helps maintain normal blood cholesterol levels.

Ginger and **gumar**, also used in the composition, help to control normal blood sugar levels and reduce cravings for sweets. The well-known and highly appreciated common **chicory plant** supports detoxification of the body and helps in the process of losing weight.
